Name _____

Unraveling Trigonometric Treasures: Finding Values for Common Angles

Short Answer

1. What are the sine, cosine, and tangent values at 0°?

2. How are the sine and cosine values at 45° related?

3. Explain how to find the tangent value at 60°.

4. What is the cosine value at 90°?

5. Why is the tangent value undefined at 90°?
