Name _____

Tim Berners-Lee: The Man Who Created the World Wide Web

Open-Ended Response Answer Key

1. (Example: "I use the web to watch videos, search for information, do homework, and talk to my friends.")
2. (Example: "He believed knowledge should be shared and wanted everyone to have access to information.")
3. (Example: "Without the web, we would not have websites, social media, or online shopping. We would have to find information in books instead of searching online.")
4. (Example: "He was creative, hardworking, and believed in his ideas even when others did not. He also wanted to help others, which is why he made the web free.")
