

Name _____

Leo's New Toy

Leo had a new toy that he loved to play with every day. It was a shiny toy car that could go very fast. Leo liked to zoom it around his room and make it race with other cars.

One rainy day, Leo stayed inside and played with his toy car. He made a track with books and pillows. The car went up and down, round and round. Leo felt like he was in a real race!

Leo's friend, Kai, came over to play. Kai brought his toy plane. They took turns flying the plane and racing the car. It was so much fun! They even made a game to see which toy could go the fastest.

After a while, Leo and Kai got hungry. They went to the kitchen and made some yummy sandwiches. They sat and ate, talking about their favorite toys.

When the rain stopped, Leo and Kai went outside to play. They took the car and the plane with them. Leo and Kai had a great time, and Leo was happy to share his new toy with his friend.
