

Name _____

Magical Forest

In a hidden forest, there was a special spot where magical creatures lived. The gnome was a master at making delicious recipes. He often made meals with pecans, raspberries, and shrimp.

One day, an elephant stumbled upon the forest. The elephant was skeptical about the magic but decided to stay. There was a silent knight who protected the forest at night. He used a sword made of steel and silver.

Every day, the creatures would gather for a picnic by the pond. They played music with their psaltery, and everyone danced. There were plenty of surprises in this enchanted place.

Sometimes, a psychic would visit and tell stories of faraway lands. The psychic's words were often hard to decipher. The gnome would smile, knowing the forest held many secrets.
