

Name _____

Wacky Whistle Wonderland

In a small town, there was a wonderful wizard named Wright. He had a knack for creating whimsical whistles.

One day, he found a wreck of an old workshop. Inside, he discovered a slew of unusual whistles. The townspeople were amazed when they heard the sounds. Each whistle could mimic a different animal. Wright decided to show the children how to use them. They blew the whistles and laughed at the funny noises.

The whistles became a beloved part of their daily routine. Every evening, the town was filled with delightful sounds.
