

Name _____

Dance of Elegance

Once upon a time in a magical forest, there lived a group of animals who loved to dance. Every night, they gathered in the clearing for a grand performance. They called this event the Dance of Elegance.

One day, an elephant named Ellie decided to join the dance. Her movements were full of grace and balance. Despite her size, she danced with such brilliance that everyone was amazed. The presence of Ellie made the dance even more special.

However, there was a problem. Ellie's enormous feet caused the ground to shake. The other animals were worried about the disturbance. They had a conference to discuss the issue.

In the end, they came up with a solution. They would build a platform for Ellie to dance on, reducing the disturbance. With the combined efforts of all the animals, they constructed a wooden stage.

That night, Ellie danced on her new platform. The balance of the stage allowed her to dance without causing any shaking. The dance of Elegance continued with even more brilliance and joy.
