

Name _____

Singing Forest

Once upon a time, in a magical forest, there lived a tiny fairy named Lila who loved singing. Every morning, Lila started her day by greeting the flowers and dancing with the butterflies.

The forest animals enjoyed watching Lila's joyful twirling. One sunny afternoon, while exploring near the river, Lila found a sparkling, glowing stone. She decided to bring it back to her treehouse, thinking it might be something special.

As she was flying home, she noticed a group of squirrels playing a game of hiding acorns. Lila stopped to join them, laughing and cheering as they ran around.

When evening came, Lila was tired but happy, knowing that tomorrow would bring more exciting adventures. She ended her day by reading a book under the moonlight, dreaming of the fun waiting in the days to come.
