

Name _____

Helpful Robots

In the busy city of Techville, there were three helpful robots named Bolt, Spark, and Widget. Bolt was very powerful and could lift heavy objects with ease. Spark was a cheerful robot who loved to light up dark places with his bright lights. Widget, the smallest of the three, was very resourceful and could fix anything that was broken.

One day, the mayor of Techville called the robots for a special mission. A beautiful garden in the city needed some colorful flowers to be planted. Bolt carried a boxful of seeds, while Spark made sure the area was full of light. Widget was skillful in planting the seeds carefully in the soil.

As they worked, they met a playful puppy named Max. Max was thankful for the robots' company and helped by digging small holes for the seeds. The garden soon began to look wonderful with all the flowers in bloom.

After their hard work, the robots felt joyful and decided to have a picnic in the garden. They shared a basketful of delicious snacks and enjoyed the peaceful surroundings. The day was truly eventful and full of fun and laughter.
