

Name _____

The Dog Whisperer's Challenge

Short Answer Key

1. Sarah's own dog, Max, fell ill during the rehabilitation process, requiring constant care and visits to the veterinarian, which added to the personal challenges she faced.
2. Sarah remained determined to see the rehabilitation of the Rowdy Rascals through and continued using her gentle training methods despite Mark's skepticism and criticism.
3. Sarah used positive reinforcement and patience in her training methods, which were effective in building trust with the pack. These methods helped diminish their aggressive behavior and led to progress in their training.
4. Sarah recognized the individual needs of each dog by observing their unique qualities and tailoring her training to address those needs. This was important because it allowed her to make progress in rehabilitating each dog and preparing them for adoption.
