

Name _____

Herbert Hoover: The Engineer of Change

Short Answer Key

1. Herbert Hoover was born in West Branch, Iowa, on August 10, 1874. He faced the challenges of losing both of his parents by the age of nine and worked his way through education, eventually attending Stanford University.
2. Herbert Hoover organized relief efforts during and after World War I, providing humanitarian aid to war-torn Europe and saving millions of lives through his leadership.
3. Herbert Hoover implemented measures such as public works programs and industry support to address the Great Depression. However, his efforts fell short of a full recovery, leading to criticism and public discontent.
4. The Dust Bowl was a severe drought and dust storm event that affected the Great Plains region during Herbert Hoover's presidency. It led to widespread agricultural devastation and added to the nation's challenges.
