## The 100th-Day Aging Accident

### Short Answer Key

1. Max and Sophie used honey from Mr. Bumblebee's bees, an old watch from the school's lost-and-found box, and a pinch of laughter from Mrs. Chatterbox's storytelling to create a potion intended to make the 100th day unforgettable.
2. When Max accidentally mispronounced the last word of the incantation, a bright flash of light turned their classmates into 100-year-old versions of themselves.
3. Mr. Bumblebee advised Max and Sophie to create a potion using the same ingredients but to pronounce the last word correctly.
4. The correct incantation word that Max remembered was "Gobbleflop," and it led to reversing the spell.
5. The 100th day turned out to be truly unforgettable, with everyone sharing their funny experiences as 100-year-olds for a day.
