## Turkey's Stand-Up Dream

### Open-Ended Response Answer Key

1. If I were in the audience during Tommy's stand-up performance, I would have felt delighted and entertained. I would have enjoyed most how his jokes were relatable and brought humor to everyday situations, making them funny and enjoyable.
2. As Tommy's best friend, I would say, "Tommy, you were absolutely incredible on that stage! Your talent for making people laugh is truly special. Keep following your dreams and spreading joy through your comedy. You've got a bright future ahead!"
3. Tommy's talent for making people laugh brought happiness to the world by lifting spirits and relieving stress. For example, during his stand-up performances, people in the audience forgot their worries and laughed together. His humor created a sense of togetherness and joy in the community.
4. If I had a unique talent like Tommy, such as playing a musical instrument, I would use it to bring joy to others by organizing free concerts in parks and public spaces. I would invite people of all ages to listen to my music, relax, and enjoy the melodies. Additionally, I would volunteer to play at local nursing homes to bring comfort and happiness to the elderly residents.
