## KWLH Chart

A K-W-L-H chart is an advanced version of the KWL chart that helps organize and track learning before, during, and after exploring a topic. It adds a focus on how to find information, making it a useful tool for critical thinking and research skills. This chart is ideal for guiding inquiry-based learning and enhancing comprehension in a structured way.

K (What I Know)	W (What I Want to Know)	L (What I Learned)
H (How I Will Learn More)
