Name _____ **Compare and Contrast**

The Alternating Method

There are two ways to write a compare-and-contrast paper.

- In the **alternating** method, you compare and contrast two subjects point for point.
- In the **dividing** method, you make all of your points about the first subject; then you make all of your points about the second subject.

DIRECTIONS: Write a paragraph that compares and contrasts the topic below using the **alternating method**.

Compare and contrast where you live now with where you would like to live one day.
