

Name _____ **Juxtaposition**

Juxtaposition in Photos

Juxtaposition means intentionally placing two things next to or near each other in order to show their similarities and their differences. Juxtaposition is frequently used in both visual and literary works. Many different kinds of things can be juxtaposed, for example:

height

age

color / shape

size

mood

class

DIRECTIONS: Find an image that juxtaposes two qualities. Cut out or print out the image. Answer the questions below. Attach your image to this sheet.

1. Describe the image you chose.

2. What is being juxtaposed?

_____ and _____

3. What is the effect of this juxtaposition?

4. Do you think these things were intentionally juxtaposed, or does the image capture an accidental juxtaposition? Why?
