# Letter Matching

Connect each letter to its matching letter and its right object.

The activity consists of three columns. The first column contains six uppercase letters in grey boxes: Y, P, H, K, T, and U. The second column contains six lowercase letters: h, y, P, t, u, and k. The third column contains six illustrations: a pineapple, a brown cowboy hat, a person in a yellow raincoat with a red and white umbrella, a blue and white yo-yo, a red teacup on a saucer, and a green diamond-shaped kite. Colored arrows connect the letters to their counterparts in the second column and then to their corresponding objects in the third column. Red arrows connect Y to y, P to p, K to k, and U to u. Blue arrows connect H to h, T to t, and U to u. Green arrows connect P to p, K to k, and t to t.
