

Name \_\_\_\_\_ **Metaphors**

# Metaphors

A metaphor is a type of figurative language that directly compares two unlike things. A metaphor is often constructed using the verb "to be." For example:

*Time is a stealthy thief.*

In this example, time is being compared to a thief. As a thief steals, so does time steal away the moments of our lives.

Use each pair of words to create your own metaphor.

heart, stone

---

---

friendship, river

---

---

love, paper  
airplane

---

---

life, dream

---

---

loyalty, dog

---
