

# Character Traits

A character trait is an attribute that contributes to a person's overall personality. Character traits are typically described with adjectives. and they can be positive or negative.

- An **internal character trait** is one that is revealed through the character's thoughts, feelings, actions, or dialogue.
- An **external character trait** is one that is discernible by what you see on the outside of a character, for example, carelessness may be revealed by sloppy dress, etc.

**DIRECTIONS:** Choose a character from the story. Identify their internal external and internal traits.

**Character:** \_\_\_\_\_

**Internal Traits**

**External Traits**
