## Dino and the Magic Piano

Dino is a tiny dinosaur who loves music. One day, he finds a magic piano in the forest. The piano is shiny and gold. Dino feels happy and decides to play a song.

When Dino plays the first note, the piano lights up. It makes a sweet sound that fills the air. Dino smiles and plays more notes. The trees start to dance, and the birds sing along.

Dino plays a fun tune, and suddenly, a blue balloon floats down from the sky. The balloon has a note that says, "Follow me!" Dino follows the balloon to a big hill.

At the top of the hill, Dino sees a rainbow and a big pot of gold. The rainbow is bright and colorful. Dino feels excited and runs to the pot of gold.

As Dino reaches the pot, he hears a voice say, "Good job, Dino! You found the magic treasure!"

Dino looks around and sees a friendly fairy. The fairy says, "The magic piano led you here. Now, you can have a wish."

Dino thinks and says, "I wish for more music!"

The fairy smiles and says, "Your wish is granted!"

Dino feels happy and plays the magic piano every day, making the forest a joyful place.
