

Name _____

Luna's Magical Umbrella

In the whimsical world of Whirlyville, there lived a little girl named Luna who owned a magical umbrella. This wasn't just any ordinary umbrella; it could make the sun shine on cloudy days and bring rainbows to the sky with a flick of its handle.

Luna loved to go on adventures with her umbrella, twirling and dancing in the rain while her umbrella hummed a cheerful tune. With each spin, Luna would shout, "Yahoo! Let's go, Umbrella, let's show the world our magic!"

One day, as Luna skipped through the enchanted forest, she stumbled upon a group of lost kittens mewing for their mama. With a compassionate heart, Luna knew she had to help them find their way home.

With her magical umbrella leading the way, Luna and the kittens embarked on a journey through the forest, guided by the soft glow of the moon. Along the way, they encountered friendly woodland creatures who joined their merry parade, hopping and skipping to the rhythm of Luna's laughter.
