Intercamp Sports Festival

At Lakewood Elementary, students were excited about the upcoming Intercamp Sports Festival. This festival brought together teams from different camps for an interactive and fun-filled day of sports.

The intercamp bus arrived early to pick up the eager participants.

When they reached the festival grounds, they were greeted by an international team of coaches who had traveled from various countries to help train the kids. The coaches explained the rules of each game using an intercom system, ensuring everyone could hear clearly.

One of the most popular events was the interschool relay race. Teams from different schools had to pass an interlocking baton without dropping it. Max and Lily, representing Lakewood, practiced tirelessly to perfect their exchange.

The festival also featured an intercultural fair where students could learn about games from other countries. They played with an intricate set of interconnecting puzzles that formed a map of the world. This activity taught them the importance of teamwork and cooperation.

At the end of the day, all participants received interwoven friendship bracelets as a reminder of the fun and friendship they had experienced. Max and Lily couldn't wait to return next year and meet even more friends from different camps.
