

Name _____

The Enchanted Playground

One sunny afternoon, the kids in the neighborhood decided to enjoy the enchanted playground. This playground was special because it had equipment that could engage the children in magical ways. As they entered, they noticed the swings could enchant anyone to fly higher than ever before.

Timmy was excited to encounter the magic seesaw that could enlarge whenever someone sat on it. Lucy decided to explore the enchanted maze that promised to enrich anyone who found the hidden treasure within. As they wandered through the maze, they encountered a talking parrot that offered to enlighten them with clues.

The parrot's clues encouraged the kids to look for an enormous, ancient tree at the center of the playground. Under the tree, they found a chest that could enable them to see different enchanted animals. They opened the chest and were amazed to see tiny dragons, glowing butterflies, and sparkling unicorns.

The kids felt their adventure had enhanced their imagination and enjoyment. They realized that the enchanted playground was a place where their dreams could come to life, enriching their afternoons with endless fun and wonder.
