

Name _____

Kitchen Adventures

Kylie loved spending time in the kitchen. She knelt to grab a pot from the lower cabinet. Her brother, Knox, was eager to help with their cooking adventure. They decided to make a snack with new recipes they had found online.

Kylie knew they needed a knife to chop the vegetables. Knox, being careful, handed her the knife and watched closely. They mixed the ingredients in a big bowl, making sure everything was just right. Kylie accidentally knocked over the salt shaker, spilling salt everywhere. They both laughed and quickly cleaned it up.

As they waited for their snack to bake, they played a game of tic-tac-toe on a notepad. When the timer finally rang, they knew their delicious treat was ready. They knelt again to pull the tray out of the oven, eager to taste their creation.
