Dolphin - Known for their intelligence and playful nature.

Shark - Especially the great white shark, a top predator of the ocean.

Sea Turtle - Iconic marine reptiles that have existed for millions of years.

Whale - Includes species like the blue whale, the largest animal on Earth.

Octopus - Renowned for their intelligence and ability to camouflage.

Clownfish - Famous for their bright orange color and association with sea anemones.

Sea Otter - Though not a fish, these mammals play a crucial role in kelp forest ecosystems.

Jellyfish - Ethereal creatures that have been drifting through oceans for millions of years.

Stingray - Recognizable for their flat bodies and long, thin tails.

Starfish - Known for their distinctive star shape and regeneration abilities.
