Brush - A handheld tool with bristles used to apply and manipulate color on a surface.

Canvas - A fabric stretched over a frame, serving as the foundation for artistic creations.

Palette - A flat surface where colors are mixed and prepared for use during a project.

Easel - A freestanding frame that supports the work area, allowing the artist to work comfortably.

Oil - A medium that provides rich, vibrant hues and a slow drying time for detailed adjustments.

Acrylic - A fast-drying medium made from synthetic materials, known for its versatility and durability.

Watercolor - A transparent medium that creates delicate and luminous effects when applied to paper.

Strokes - The individual motions used to apply color, contributing to the overall composition.

Pigment - The material that provides the color in paints, derived from natural or synthetic sources.

Texture - The physical or visual quality of a surface created through layering or technique.
