

Name _____

Reindeer Rebellion: Santa's Alternative Christmas Ride

Short Answer Key

1. Santa needed alternative transportation because his reindeer had decided to take a vacation.
2. Santa's alternative transportation team consisted of Flipper (a surfing penguin), Rocket (a rocket-powered sled), Slinky (a long and stretchy toy), and Twirl (a dizzying whirlwind). Flipper could ride the waves, Rocket was fast, Slinky was stretchy, and Twirl created gusts of wind.
3. The mishaps and challenges added humor and excitement by creating unexpected twists in the story. They showcased the creativity and resilience of the characters.
4. Answers may vary. Possible responses could include using flying squirrels, magical broomsticks, or flying carpets as alternative transportation because they would add a touch of fantasy and adventure to the Christmas journey.
5. Sparkle the elf suggested using alternative transportation because the reindeer were on vacation, and although there were a few mishaps, the unusual team successfully delivered presents, ensuring a merry Christmas for everyone.
