## Misty Forks

### Short Answer Key

1. The Cullens need to avoid sunlight because it makes their skin sparkle, which would reveal that they are vampires.
2. The constant gray skies and rain make Bella feel lonely and out of place since she is used to the bright, sunny weather of Arizona.
3. The forests are deep, quiet, and often covered in mist, making them feel secretive and magical.
4. The misty weather and dark woods make the novel feel mysterious and dramatic, which matches Bella and Edward's unusual love story.
5. The author likely chose Forks because its gloomy weather creates the perfect atmosphere for a vampire story.
