## Misty Forks

### Open-Ended Response Answer Key

1. If the story took place in a sunny place, the Cullens would not be able to blend in, and the dark, mysterious mood of the novel would be lost.
2. The constant rain and shadows make it easier to believe that vampires could exist without humans noticing them.
3. Dark, rainy settings make things feel uncertain and spooky, which is why they are used in many supernatural stories.
4. Answers will vary but should include an example of a book or movie where the setting is important (e.g., Harry Potter's Hogwarts or The Lion, the Witch, and the Wardrobe's Narnia).
