Treehouse Adventure

Sammy and his friends decided to build a treehouse. They gathered all the necessary supplies, including wooden planks and nails. The biggest tree in the backyard was chosen as the perfect spot.

Everyone helped, with Tommy using a hammer to secure the planks. Jenny painted the walls with bright, happy colors. Bobby tied a sturdy rope ladder to a strong branch. The kids worked together, taking turns to saw and drill.

After several hours, the treehouse was finally complete. They celebrated by having a picnic inside, enjoying sandwiches and snacks. The treehouse became their special place for many fun afternoons.
