

Name _____

SEASONS

Match the months with the seasonal tree

The image shows a matching exercise. On the left, months are grouped into five boxes:

- Blue box: January, February
- Green box: March, April, May
- Red box: June, July, August
- Yellow box: September, October, November
- Blue box: December

On the right, there are four trees representing different seasons:

- Top tree: A tree with yellow leaves, representing autumn.
- Second tree: A dark green evergreen tree with snow on its branches and ground, representing winter.
- Third tree: A tree with full green leaves, representing summer.
- Bottom tree: A palm tree with coconuts, representing a tropical climate.

Arrows connect the boxes to the trees as follows:

- Blue box (Jan/Feb) points to the winter tree.
- Green box (Mar/Apr/May) points to the autumn tree.
- Red box (Jun/Jul/Aug) points to the summer tree.
- Yellow box (Sep/Oct/Nov) points to the winter tree.
- Bottom blue box (Dec) points to the winter tree.
