## The Feast in the Forest

In a beautiful forest, there lived a clever fox named Peanut and a friendly bear named Beans. One day, Peanut and Beans decided to have a feast. They wanted to eat all their favorite treats.

Peanut and Beans worked together to gather food. Peanut found some sweet peaches near the stream. Beans found some leafy greens near the trees. They also collected bread, cheese, and creamy milk.

They spread a big blanket on the ground and set out their feast.

Peanut and Beans sat down to eat. "This is the best feast ever!" said Peanut. Beans agreed, "Yes, this is a great meal!"

As they enjoyed their feast, a gentle breeze blew through the trees. They heard birds singing and leaves rustling. Peanut and Beans felt very happy.

After eating, they decided to play a game. They played hide-and-seek among the trees and had lots of fun. The feast in the forest was a special day they would always remember.
