## The Magic Island

On a hidden island, a gnome found an ancient map. The island was known for its haunted forest.

One night, the gnome ventured into the forest with a lantern. The forest was silent, and he felt a strange presence. Suddenly, he stumbled upon a secret tunnel. He knelt down and entered the tunnel cautiously. Inside, he discovered a chest filled with gold coins and a signet ring.

The gnome's bravery paid off as he brought the treasure back to his village. The villagers honored him with a grand feast for his incredible find.
