

Name _____

Magic Gumball Machine

In the corner of a quaint candy shop stood a magic gumball machine. This wasn't an ordinary machine; it was vibrant with colors and sparkled under the shop's lights. Every time someone turned the crank, a surprise gumball would pop out.

One day, a little girl named Emily visited the shop. She wore a turquoise dress and a big smile. Emily put a coin into the machine and turned the crank. Out popped a gumball that glowed like a tiny star. Excited, she popped it into her mouth and suddenly felt like she could float. As she chewed, she saw a bouquet of gumballs forming into a rainbow above the machine. Everyone in the shop gasped in amazement.

The magic gumball machine was truly special, bringing joy and wonder to everyone who used it. Emily left the shop with a pocket full of gumballs and a heart full of happiness.
