

Name _____

Predictable Fun

Open-Ended Response Answer Key

1. The story would be different without repetition. Some readers might enjoy a more unpredictable story, while others might find it harder to follow.
2. Prediction is useful in everyday life, like guessing what will happen in a game or predicting the weather based on the sky.
3. Many books for young children use repetition, like *Brown Bear, Brown Bear, What Do You See?* because it helps with learning language and memory.
4. If the main character were a monkey instead of a mouse, the story might focus on climbing instead of sneaking into small places, which could change how the pattern works.
