

Name _____

Magic School Surprise

In a magical school, a young girl named Alice discovered a secret passage. She noticed a

peculiar scent coming from the ancient books.

Her friend, Victor, joined her to explore the hidden corridor. They walked past a stack of muscle-enhancing potions. Alice and Victor found a small alcove with a glowing crystal. The crystal's light was so bright it was almost electric. They carefully touched it and felt a subtle vibration.

Suddenly, a silent door opened, revealing a room filled with magical artifacts. Their adventure had just begun, and they knew there were many more secrets to uncover.
