

Name _____

A Knack for Adventure

Katie knew it was a special day when she found a knapsack at the end of her bed. The knapsack was filled with snacks, a notebook, and a map. She quickly knocked on her brother's door, excited to show him what she found.

"Look, Kyle!" she said. Kyle was known for his knack of finding hidden places. Together, they planned to explore the nearby forest.

As they walked, they found a narrow path that led to a hidden cave. "We need to be keen and not make any noise," whispered Kyle. They tiptoed inside, trying not to make a single sound. In the cave, they discovered a knee-high treasure chest.

Katie knelt down and opened it slowly. Inside, there were coins, old keys, and an ancient book. They knew they had to keep the secret of the treasure to themselves. They quickly covered the chest and marked the spot on their map. "We have to remember this place, Katie. It's our special discovery," said Kyle.

They trekked back home with a sense of pride and excitement, knowing they would come back another day to explore more.
