

Name \_\_\_\_\_ **Compare and Contrast**

# Compare and Contrast

To compare things means to look for things that are the same. To contrast things, you look for things that are different. When comparing and contrasting in the same piece of writing, transition words signal comparison or contrast to the reader. Sort the words into the correct columns.

whereas            as well as            just as            correspondingly

likewise            resembles            on the contrary            instead

in spite of            however            similarly            on the other hand

Use to Compare

Use to Contrast
