

Name \_\_\_\_\_

## Winter Wonderland

### Short Answer Key

1. The mitten is white, just like the snow, making it hard to see.
2. The animals are forced to share space to stay warm, even though they would normally stay apart.
3. The mitten provides quick warmth, and no other shelter is nearby.
4. The bear's sneeze sends all the animals flying, ending their time inside the mitten.
5. A red mitten would stand out against the snow, making it easier for Nicki to find.
