## School Adventure

### Open-Ended Response Answer Key

1. Yes, being excited about learning is good because it helps you stay interested and curious. However, it's also important to stay focused.
2. The story shows learning outside the classroom when the mouse explores the playground and experiments in science class.
3. Answers will vary. Example: "I would bring a dog to school because they are friendly and could make everyone happy."
4. The mouse learns that school is exciting and full of learning opportunities. We can apply this lesson by being open to new experiences in school.
