Magical Night Flight

In the quiet night, the castle was lit by moonlight. A knight rode silently through the forest, his armor gleaming.

The forest was full of mystical creatures, hiding from sight. They watched the knight from their secret spots. Suddenly, the knight's path was blocked by a glistening waterfall. He knew he must find a way around it to reach the hidden grotto.

The grotto held the entrance to a legendary treasure. He felt a soft warmth in his heart, believing he was close to his goal.
