## Animal Band Jam

In the jungle, a band  
began to bang on

drums. The clang of cymbals rang through the

trees. A bird with a long beak sang a joyful song.

The monkeys swung along, loving the gang's tune.

Nearby, a frog's tongue snapped up a bug as it

listened. The kangaroo bounced and danced

with a swing. Even a snake joined in, with a loud

fang clatter. The band played all night until the

stars began to hang low in the sky.
