

Name _____

Invention Convention

The annual Invention Convention was the biggest event of the year. Students from different schools came together to present their unique creations. Each invention had a special function that solved a common problem.

Mia's project was a robot that could perform calculations faster than anyone. Her friend Leo created a machine that could make delicious smoothies with a simple motion of the hand. Sarah's invention was a plant irrigation system that saved a lot of water.

During the event, judges walked around to inspect each presentation. They were impressed by the precision of every invention. The crowd's reaction to the displays was full of excitement and admiration.

At the end of the day, the announcement of the winners created a lot of anticipation. Mia, Leo, and Sarah were proud of their participation, regardless of the final decision. The Invention Convention inspired many to explore their imagination and strive for innovation.
