## The Great Beach Treasure Hunt

One sunny day, Leah and her friend Dean went to the beach. They were excited to have a fun day in the sand. Leah brought her big red bucket, and Dean had a shovel. They planned to build the greatest sandcastle ever.

While digging, Dean found a shiny object. "Look, Leah!" he shouted. Leah ran over to see. It was a golden coin! They decided to keep digging to see if they could find more treasures. They found seashells, a starfish, and even a tiny treasure chest.

Inside the chest were more coins, a necklace, and a map. The map showed a path to more treasure hidden on the beach. Leah and Dean followed the map, giggling and chatting along the way. They had to leap over small streams and walk carefully over seaweed.

At the end of the path, they found a big X marked on the sand. They dug and dug until they found another chest. Inside, they found even more gold coins and a note that said, "Congratulations, treasure hunters!"

Leah and Dean were thrilled with their adventure. They decided to share their treasure with their friends and have a big beach party. They learned that the best part of treasure hunting was having fun with a friend.
