

Name _____

RoboEgg: The Easter Egg Hunt Assistant

Open-Ended Response Answer Key

1. (Possible answer) If I were Alex, I would consider adding a voice command feature to RoboEgg, allowing it to interact with the kids and give them hints or clues in a fun and engaging way. This would make the Easter egg hunt even more interactive and enjoyable.
2. (Possible answer) RoboEgg's invention changed the way the family experienced Easter egg hunts by making them more exciting and adventurous. It added an element of surprise and creativity with clues and riddles, making the tradition more interactive and memorable.
3. (Possible answer) Alex demonstrated creativity, determination, problem-solving skills, and a love for family traditions by building RoboEgg for the Easter egg hunt. They showed that with ingenuity and effort, they could enhance and bring joy to special occasions.
