## Lands of Oz

### Open-Ended Response Answer Key

1. Students may choose Munchkinland for its bright and happy setting, the Emerald City for its mystery, or the Witch's castle for adventure.
2. Some may argue that the people of the Emerald City were wrong to trust a false leader, while others may say they had no other choice.
3. The Wicked Witch rules with fear and threats, while the Wizard rules with illusions—both leaders are not what they seem.
4. Different settings help create mood, teach lessons, and show how characters grow throughout a story.
