

Name _____

Peer Pressure and Its Impact on Substance Abuse

Open-Ended Response Questions

1. Define peer pressure and provide examples of both positive and negative peer pressure situations.
2. Describe the impact of negative peer pressure on substance abuse, including how it can lead to experimentation, regular use, and risky behavior.
3. Discuss the importance of resisting negative peer pressure related to substance abuse and provide strategies for doing so.
4. Explain why it is crucial to seek support from positive influences and make informed decisions when facing peer pressure, and how these actions can protect individuals from substance abuse.
