

Name _____

School Day Fun

Short Answer Key

1. The backpack is important because it holds the mouse's supplies and reminds him of what he needs, just like it does for real students.
2. The mouse shows excitement by filling up an entire notebook quickly, showing how eager he is to learn and create.
3. Recess seems to be the most fun because he gets to run, swing, and slide with lots of energy, just like many students enjoy doing.
4. The book exaggerates the mouse's actions, like building a huge block house or taking over science class, to make the story funnier.
5. The mouse's school experience is similar to real students because he follows a daily routine—learning, playing, eating lunch, and checking his backpack.
