

Name _____

The Secret Tunnel Bash

Short Answer Key

1. Madame Enigma, the math teacher, revealed herself as the host, and her role was to create a magical and educational experience for the students.
2. Students encountered activities like mural painting, wacky science experiments, dancing on mathematical equations, and a glitter fashion show. They also discovered themed rooms with mathematical puzzles and optical illusions.
3. The party in the tunnels showed students that math could be fun and exciting when combined with creative and interactive experiences.
4. Treats like pi-shaped pizzas and equation cupcakes, along with activities like creating chemical reactions and participating in a glitter fashion show, incorporated math into the theme.
5. The "Math Magician" used magic tricks that combined math and illusion to amaze and entertain the students, showing them the magic of math.
