## Wild Warnings

### Short Answer Key

1. Exaggeration makes problems like pollution and deforestation seem bigger and more urgent, so readers pay attention.
2. They leave because the Once-ler's factory pollutes the air, water, and land, making it impossible for them to survive.
3. The book shows thick black smoke covering the sky and toxic water making fish leave, helping readers see how pollution harms nature.
4. The Once-ler's greed represents how some businesses put money before protecting the environment.
5. The bright and silly world makes the story fun to read while still teaching an important lesson about taking care of the planet.
