

# Make a Prediction

A concluding sentence tells the reader they are coming to the end of a paragraph. One strategy for writing a concluding sentence is to restate the main idea. A concluding sentence should begin with a transition word or phrase which lets the reader know that the conclusion is coming.

**DIRECTIONS:** Write a concluding sentence for each topic sentence that makes a prediction.

1. Human activity contributes to climate change in several ways.

---

---

2. Virtual reality games can be a way to get exercise.

---

---

3. Every home should have artwork on the walls.

---

---

4. Produce grown in backyard gardens has more nutrients.
